

Trust CoreSite Data Centers to Enable Your Customer's AI Strategy

92%

92% of IT executives are considering moving AI/ML workloads from public clouds to colocation. (2023 State of Data Center Report, CIO/CoreSite)¹

90%

By 2027, 90% of enterprises will use some artificial intelligence (AI) functions to automate Day 2 network operations. (Gartner)²

70%

70% of IT service providers have already deployed AI, or plan to within one year. (Heavy Reading)³

CORESITE IS THE INTERSECTION OF INTERCONNECTION FOR AI

As organizations rush to embrace artificial intelligence (AI), IT leaders within these organizations are simultaneously working to determine how best to accommodate the increase in computing, storage and connectivity requirements that come from AI.

CoreSite data centers combine the benefits of colocation with direct cloud connectivity to help organizations more efficiently embark and progress on their AI journey. Our purpose-built, secure data centers help make it easy for customers to implement AI into their business.

CORESITE IS THE FOUNDATION NEEDED TO BUILD YOUR CUSTOMER'S AI FUTURE

CoreSite is an AI accelerator, providing a direct onramp to AI-compute capabilities in all public clouds and is capable of hosting multiple "flavors" of AI processes, just as we do with public cloud providers.

Organizations specialized in AI-scale data transport and AI-specific services can rely on CoreSite for the customization, interconnection, reliability, scalability and digital ecosystem they need to develop solutions today and continuously evolve their core competencies as AI matures.

CORESITE IS AN AI INCUBATOR

Our data centers provide the onramp to AI-compute capabilities in clouds. We host multiple components that drive AI processes. CoreSite is a hub that enables customers to develop solutions and evolve their core competencies as AI—and the organization's AI strategy—matures. We enable customers to:

- ✔ **Support AI CORE technologies and machine learning (ML) requirements**
- ✔ **Create new AI platforms**
- ✔ **Fulfill AI compute requirements**
- ✔ **Create genomes with high-density GPUs**
- ✔ **Support high-compute GPU requirements**

HIGH DENSITY

Ready for AI/ML, analytics, GPU, virtualization, 5G

HIGH PERFORMANCE

Supports deployments requiring exceptional power and low latency

RELIABLE

100% uptime SLA

LOW LATENCY

Enterprise direct-to-cloud connectivity and network density drive workload performance consistency, even at the edge

SCALABLE

Customers have the ability to grow their footprint with their business

EXTENSIVE ECOSYSTEM

Direct connections to all major cloud providers, carriers, services providers and digital platforms

A WINNING COMBINATION: INDUSTRY EXPERTISE + OPERATIONAL EXCELLENCE = A BEST-IN-CLASS EXPERIENCE

What's our formula for mutual success? We combine 20+ years of custom hybrid IT deployments with data center operational excellence and commitment to customers. The result is bigger deals and "sticky" relationships forged through stellar experiences.

CORESITE MAKES YOU LOOK GOOD

We are an extension of your business, an A+ player committed to making you look good. That means hitting delivery dates. Open, frequent and accurate project management during implementation. Customized deployments that compel customers to renew contracts, add more services and make referrals.

THE CORESITE DIFFERENCE

Hybrid Cloud Experts – 10+ years orchestrating private and public cloud solutions

Robust Digital Ecosystem – The hub for interconnection to customers and partners

Partnership – Easy-to-work-with sales, engineering, ops and vendor services teams

Wholesale and Retail – Flexibility to meet the vast set of density needs

Campus Approach – 28 interconnected data centers in 10 major markets

CoreSite delivers secure, reliable, high-performance data center colocation and interconnection solutions to a growing customer community across 10 key North American markets. The world's leading enterprises, network operators, cloud providers and supporting service providers choose CoreSite to connect, protect and optimize their performance-sensitive data, applications and computing workloads.

Interested in learning more about how CoreSite can help your end customers and their AI journey? Connect with a member of our Channel sales team to discuss how we can help your customers.
