

Atlanta

DATA CENTER CAMPUS

Accelerate IT Modernization, Ensure Security and Gain Competitive Edge

ACCESS ALL MAJOR PUBLIC CLOUD PROVIDERS THROUGH THE OPEN CLOUD EXCHANGE®

Google Cloud

As one of the fastest-growing data center markets, Atlanta has the third-largest concentration of Fortune 500 companies in the United States. CoreSite's Atlanta data center campus includes AT1, which is located in the second most interconnected building in the heart of downtown Atlanta, and AT2 in Marietta. Together these assets are strategically positioned to provide hybrid IT solutions in this rapidly growing technology hub.

What began as Colo Atl and DataSite facilities serving Atlanta-area businesses now operate as an integral part of the broader data center ecosystem within CoreSite, an American Tower Company. With a long-standing track record of operational experience in this market, CoreSite's Atlanta team offers the technical, security, remote hands and customer service expertise organizations rely on to future-proof their business. Offering low-latency, redundant and secure colocation services, businesses of all sizes can dynamically scale their IT infrastructure to meet their ever-changing needs.
