Global digitization is soaring. The demand for data centers in the second-largest metropolitan area in the U.S. is exploding. The CoreSite Los Angeles data center campus, a premiere option in connectivity and hyper-scalability, meets that demand. Our One Wilshire® (LA1), LA2 and LA3 facilities are home to one of the largest digital ecosystems in the world. A vast array of domestic and international carriers, enterprises, CSPs, media and entertainment firms, social networking sites and gaming companies are tenants in our Los Angeles campus.

Multiple subsea cables to Asia-Pacific at One Wilshire open a gateway to the global marketplace. Designed for high-density, high-scalability requirements and tethered via high-count dark fiber to One Wilshire, CoreSite's LA2 data center offers a secure, flexible environment for holistic hybrid IT solutions. LA3 is certified as part of the NVIDIA DGX-Ready Data Center program and is capable of supporting artificial intelligence (AI), machine learning (ML) and other high-density applications.
