

Washington D.C.

DATA CENTER CAMPUS

Accelerate IT Modernization and Go Global with Leading Connectivity Solutions

ACCESS ALL MAJOR PUBLIC CLOUD PROVIDERS THROUGH THE OPEN CLOUD EXCHANGE®

Data center location is always important, but in Washington D.C. it's truly mission critical. Located in the heart of downtown, CoreSite's DC1 and DC2 Washington D.C. data centers are purpose-built for government entities, financial institutions and enterprises in industries ranging from defense to trading and investing and online gambling. In fact, DC2 is the only enterprise-class data center in downtown D.C. with direct, private connectivity to cloud service providers.

CoreSite's DC1 and DC2 data centers are the most interconnected colocation facilities in Washington D.C., providing unmatched access to network and cloud providers. The campus is tethered via dark fiber with our Northern Virginia campus in Reston.

Compliance is top priority for the regional digital community. Our D.C. campus meets FISMA and FedRAMP deployment requirements as well as private enterprise standards and data sovereignty laws.

HYBRID IT DEPLOYED IN COLOCATION DATA CENTERS ENABLES BUSINESSES TO

MEET COMPLIANCE REQUIREMENTS

REDUCE TOTAL COST OF OWNERSHIP

ENSURE SECURITY AND BUSINESS CONTINUITY

MONETIZE BUSINESS

GAIN COMPETITIVE EDGE

INTEROPERATE TO QUICKLY SCALE

CORESITE VALUE BY VERTICAL

ENTERPRISE

Future-proof your digital business

- Secure interconnection to public clouds and digital ecosystem
- Inter-market data center connectivity and global market reach
- Customer support through remote hands and service delivery platform
- Active-active enabled disaster recovery and data backup
- 24x7x365 full operational support and security

PUBLIC SECTOR

Mission-critical connectivity solutions and protection

- NIST 800-53 Revision 4 Compliant
- Support FISMA and FedRAMP compliance efforts
- DC1 and DC2 in the heart of downtown D.C.

WHY BUSINESSES CHOOSE CORESITE WASHINGTON D.C.

Meet the most stringent requirements for security, data sovereignty, interconnection and cloud access

- A diverse and redundant option for entities seeking to be proximal to their critical infrastructure
- Access to native cloud onramps
- Engage with a robust and growing ecosystem of business partners and customers
- Focus on core competencies and innovation, rather than on IT infrastructure

“CoreSite checks all the boxes for us. Its nationwide presence in key areas helped us expand to the West Coast, and its nimble, flexible approach to data center services helped us build a robust solution to meet our customers’ needs into the future.”

ED FINERAN, CEO, ATLANTECH ONLINE
