

Driving Digital Transformation Through Data Center Relocation

ENSURE “STATUS GREEN” BUSINESS CONTINUITY

Enterprises of all sizes are evaluating their technology infrastructure. They are finding that colocation can help with cost reduction initiatives, new technology adoption, optimizing hybrid cloud strategies and supporting a hybrid work business model.

CoreSite and JK Technology Services’ strategic partnership gives you a true end-to-end change management solution, from design to delivery, while focusing on “status green” business continuity.

CORESITE AND JK TECHNOLOGY SERVICES STRATEGIC PARTNERSHIP

While CoreSite is the data center of choice for customers of all sizes and across all industries, JKTS leads the successful migration and comprehensive project management needed to successfully move and launch the physical hardware and servers—all while minimizing downtime, prioritizing communications and driving customer success.

JKTS BENEFITS

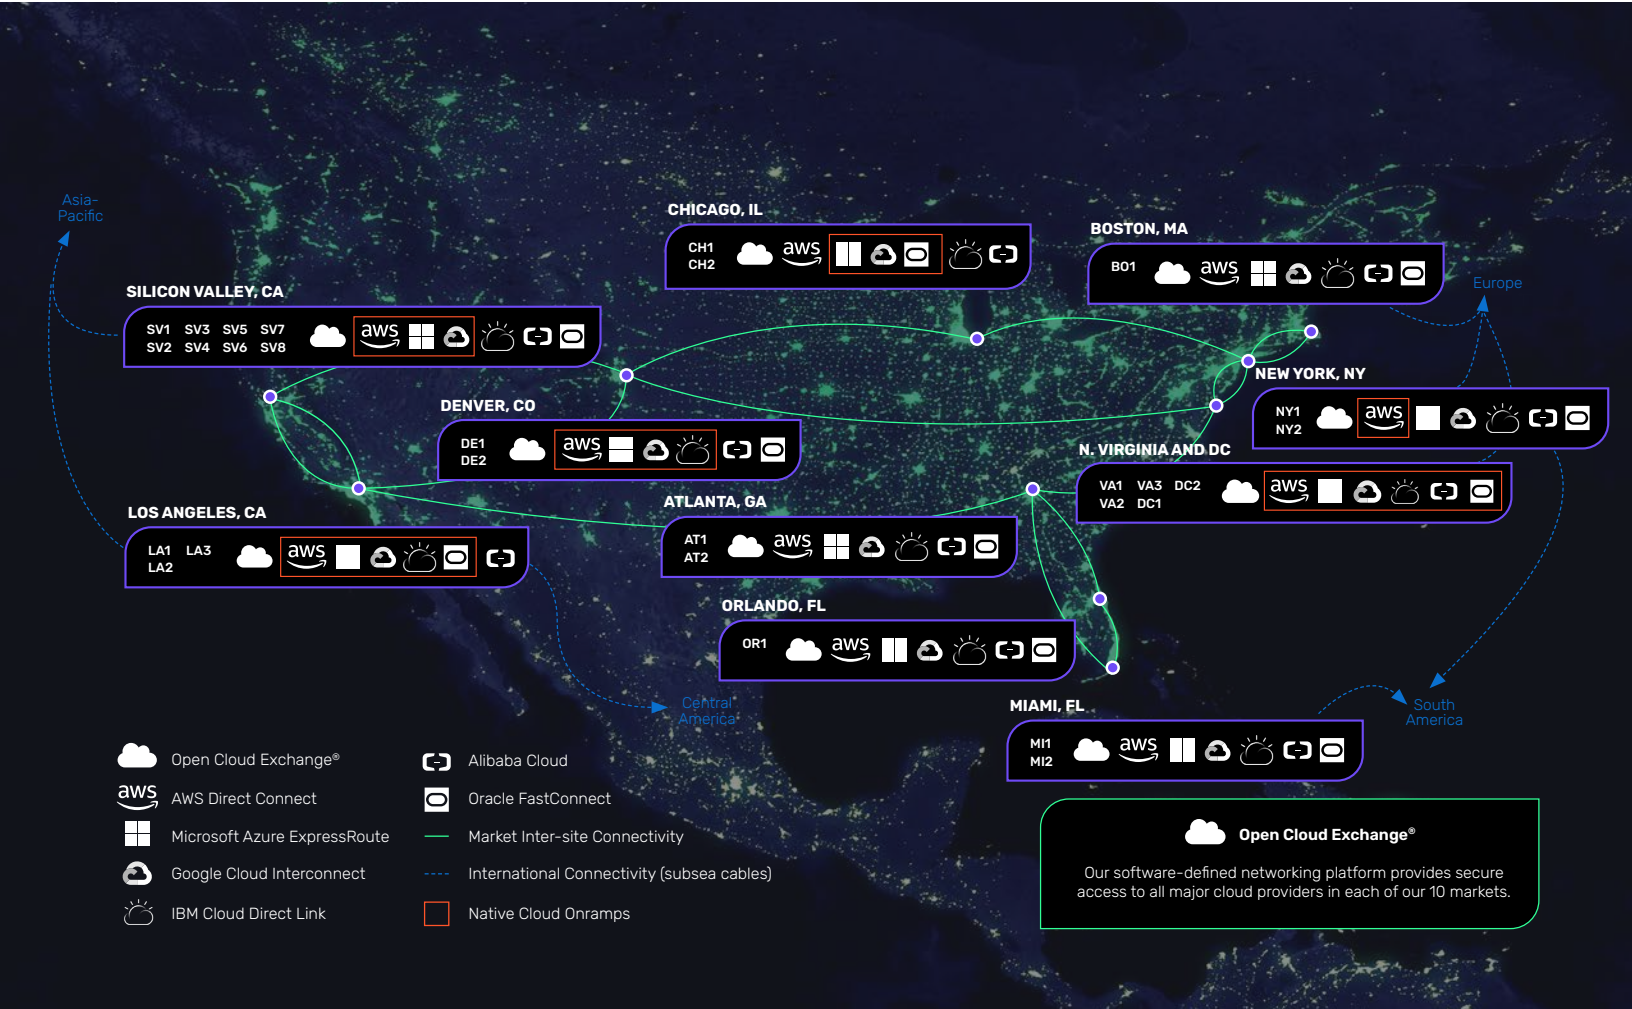

JKTS has developed a services platform built on real-time communications, transparency and best practices for every step in the relocation, including:

- ✔ **Project management**
- ✔ **Data center infrastructure support services**
- ✔ **Relocation**
- ✔ **New technology deployment**

CORESITE BENEFITS

CoreSite data centers delivering a solution that mitigates downtime in an IT environment offering scalability, security, dense network interconnection and compliance with industry standards. CoreSite offers:

- ✔ **Customized deployments**
- ✔ **100% uptime SLA**
- ✔ **24x7x365 security staff**
- ✔ **Remote hands services**
- ✔ **28 data centers in 10 key markets**

RELOCATION WITH ZERO DOWNTIME

CoreSite and JKTS align as an extension of your organization. From initial discovery to powering up your colocation deployment, we never lose sight of your need for communication, transparency and business continuity.

A data center migration is a complex undertaking, one that involves not only relocating hardware and software but also ensuring the data center is right for your business. Combining a customer-centric commitment and data center operational excellence, we simplify the logistics of relocation and help make your business future-ready.

ABOUT CORESITE, AN AMERICAN TOWER COMPANY

CoreSite, an American Tower company, provides hybrid IT solutions that empower enterprises, cloud, network, and IT service providers to monetize and future-proof their digital business. Our highly interconnected data center campuses offer a native digital supply chain featuring direct cloud onramps to enable our customers to build customized hybrid IT infrastructure and accelerate digital transformation.
