What is EdTech?
The EdTech (Educational Technology) industry is a rapidly growing sector that is transforming the way students learn and acquire knowledge.1

Technology is a major driver of change
From the introduction of the printing press to the rise of online learning, technology has always had a profound impact on how we learn.2

$1 TRILLION
The online learning or “eLearning” market size is set to cross $1 trillion by 2028.3

$1 TRILLION
The average number of unique EdTech tools accessed by the individual educator is 148.3

99%
EdTech usage in K-12 classroom has increased 99% since 2020.4

79%
EdTech is used daily by 79% of teachers.5

99%
EdTech usage in K-12 classroom has increased 99% since 2020.4

EDTECH IS REVOLUTIONIZING Teaching & Optimizing Student Outcomes

Ready to Accelerate Your EdTech Adoption?
Learn how highly interconnected data centers, along with cloud onramps and a robust ecosystem of network carriers can help accelerate your EdTech adoption and optimize outcomes for learners.
